

SOUTHLAND REGIONAL COUNCIL
(known as Environment Southland)
Invercargill-Rakiura Constituency
Electing 6 Regional Councillors

Lyndal LUDLOW

My principal place of residence is in the Invercargill-Rakiura Constituency area.

It is time to bring a fresh, independent voice to the Council table and its conversations with Iwi and stakeholder communities.

With governance experience for organisations at national and local levels I bring an understanding of policy, evaluation, and consultation. I am particularly interested in progressing the Regional Air Plan and wilding pine eradication. I would value collaboration with staff on actions to improve water quality and quantity. While I come from an urban environment I understand the importance of rural biodiversity. I am excited by the potential opportunities SoRDS may propose and want to play a role in enabling it. I work in events and marketing for the Cancer Society. I volunteer for community projects from small to big, sports to arts and enjoy supporting the endeavours of my husband Darren and our 2 sons. I would value your vote to bring a fresh perspective to Environment Southland.
