

SOUTHLAND REGIONAL COUNCIL
(known as Environment Southland)
Invercargill-Rakiura Constituency
Electing 6 Regional Councillors

Neville COOK

My principal place of residence is in the Invercargill-Rakiura Constituency area.

The wealth of Southland lies in its water resource, both the flowing rivers and the underground reservoirs. Water is vital to our lives. There we are increasing pressures of this resource and it must be actively managed for future generations to enjoy. Drinking water and recreational bathing standards are breached in some areas. This is what we need to change to ensure our families can continue to enjoy that wealth and benefit from it. As your Council representative it is my priority to preserve our heritage and restore our precious water resource. Working with our communities through the current Water and Land Plan is the first step in preparing for our future.
