

Southland Regional Council
(known as Environment Southland)
Eastern-Dome Constituency
Electing 2 Regional Councillors

Peter JONES

My principal place of residence is in the Eastern-Dome Constituency area.

Having completed two terms, the role as your Councillor remains interesting, diverse, challenging and complex.

I have been part of the Gore and rural community all my life, still farming our property near Gore and casually employed in the surrounding area. I believe this gives me a good practical appreciation as to how the decisions of the Council will affect those in both the urban and rural areas, what can readily be achieved and what will take time to be implemented.

It is pleasing to have been part of a Council that has continued to improved its relationship with stakeholders and is now endeavouring to engage as much as possible when going through the policy and planning process which I believe is the best way forward to achieving the sustainable management of our region's resources.

For positive change to continue, I ask for your vote.
