

Southland Regional Council
(known as Environment Southland)
Invercargill-Rakiura Constituency
Electing 6 Regional Councillors

Bonnie MAGER

My principal place of residence is in the Invercargill-Rakiura Constituency area.

I am a qualified and experienced leader. My beyond-the-binary approach to decision making and lateral thinking is what Southland needs. It was this thinking that helped me put Invercargill on the map with my award-winning social media work for the library and it's this same thinking that will help me advocate for you!

With a BSC in Zoology + Geography, I have the knowledge to help us invest in the future of our environment. Being 32, my decisions and policy will have a direct impact on my life. My focus is to find practical fixes for our local rivers, help protect our coast and help us achieve a predator free Rakiura. We need someone on council who is serious about change, who will listen to the people, and who is not afraid of rocking the boat. I am that person. So put your tick in my box, this election.
