

Southland Regional Council
(known as Environment Southland)
Invercargill-Rakiura Constituency
Electing 6 Regional Councillors

Nathan SURENDRAN

Independent

My principal place of residence is in the Invercargill-Rakiura Constituency area.

I'm a proud Southlander. I value our Water, Land and People as a treasure. As an engineering and environmental professional, I know we must regenerate our environment, whilst improving the wellbeing of our community, and dealing with the limits we face. We are seeing the consequences of short-term decision making across society and urgently need brave, visionary leadership to drive a better way for our people and our environment.

My career has included working as a chartered professional engineer and entrepreneur. Currently I empower our young people by teaching on the Engineering and Environmental degrees at SIT. I possess a holistic knowledge of economic, energy and environmental matters, and I love listening and learning. I'm stubbornly hopeful about the future for my two school age children, yet I'm realistic about the challenges we face.

A vote for me is a vote for positive change, towards a significantly better future.
