

Southland Regional Council
(known as Environment Southland)
Invercargill-Rakiura Constituency
Electing 6 Regional Councillors

Lyndal LUDLOW

My principal place of residence is in the Invercargill-Rakiura Constituency area.

Having served two terms as an urban representative I want to continue to work hard and be actively involved in discussions and decision making at Environment Southland. I'm

Chair of the Organisational Performance & Audit Committee and was recently made Chair of the Climate Change sub-committee. Urban air quality, biodiversity, biosecurity, coastal management, water quantity and quality continue to be front of mind issues. I value our maturing relationships with iwi. Our complex relationships with central government require continuing professional but firm approaches informed by local knowledge, good science and perceptive understanding of changing regulatory frameworks. Achieving outcomes that will result in the environmental, social, economic expectations of Southlanders is a challenge which should include an urban voice. As a mother of two teenage boys, a teacher, an arts advocate, and volunteer I would value your vote to bring my perspective and skills to Environment Southland.
