Subject: RE: pSWLP - Topic B - Expert Conferencing

Importance: High

Good afternoon all,

Further to the below – the planning witnesses have added an extra question for the farm system experts:

8. Are the setbacks in Rule 25 sufficient for reducing sediment and nutrient run-off if direct drilling or equivalent cultivation activities were to occur on land between 15 and 30 degrees in slope? If not, what controls would you recommend? Is there a maximum slope at which all cultivation including direct drilling should be managed on a farm specific basis?

Additionally, can counsel who have instructed farm expert witnesses please provide their witnesses contact details by the **end of day today**.

Kind regards, Karina

Karina Kelly

Subject: RE: pSWLP - Topic B - Expert Conferencing

Good afternoon all,

Please see attached the JWS from the planning conferences this week. Can counsel please ensure this is passed on to their Farm System experts ahead of next weeks conference.

Kind regards, Karina
