Subject: Miraka Farms APP-20171594 Request to Separate Land Use Consent to Construct New Effluent Storage Pond

Hi Courtney

Firstly thank you very much for arranging a meeting to discuss the above resource consent applications with us. I found this meeting extremely useful for clarification, confirmation and agreeing to a process to progress the consent applications. It was very much appreciated.

As we discussed at the meeting I would like to formally request that the land use consent to construct a new effluent storage pond be de-coupled from the other resource consent applications. Whilst I acknowledge that they are inter-related, to a point, this new effluent storage pond is required regardless of the outcome of the remaining consent applications. Therefore I do not consider that processing this consent in advance of the others leads to any pre-determination argument.

I appreciate your consideration of this request and if you have any questions or require any additional information around this request then please contact me.

Regards
Victoria
