Outcome sought

I wish Environment Southland to make the following decision

To support the application.

Why I wish Environment Southland to make this decision

I have been involved in alluvial gold mining for the past 16 years in Otago Southland regions, i hold a current certificate of competency as a A Grade mine manager and am currently working for an Alluvial gold mine.

I have seen first hand the benefits of such an operation many times, they bringing a lot of money and a huge amount of employment opportunity for a region that other wise has large scale mining operations shutting down.

Waikaka gold mines limited is run by Waikaia gold they run and operated a very successful operation for several years in the Wiakaia valley that had many similar challenges.

They have a huge amount of experience and knowledge and made a beautiful job of there last project, i would have know reservations in granting this consent.
