

Southland Regional Council
(known as Environment Southland)
Hokonui Constituency
Electing 1 Regional Councillor

Peter MCDONALD

My principal place of residence is in the Hokonui Constituency area.

With your support I was elected in 2019 onto Environment Southland. I am now respectfully asking for your support once more so that I can continue to advocate for responsible and progressive decisions that have benefit for the entire region. I will continue to promote working alongside Southland's other councils to avoid overlaps in services. Future local government in Southland will be about working together with a strong focus on the ratepayer's welfare and the ability to fund the services that we expect. To ensure this, the four councils must organise themselves in a more efficient way to meet these future challenges.

My wife Kim and I farm in the Caroline Valley. The Dipton community and Southland have allowed us to grow and flourish and it is my intention for well-being to be a focus for our region so that we all can thrive and benefit from a healthy environment.
