

Southland Regional Council
(known as Environment Southland)
Invercargill-Rakiura Constituency
Electing 6 Regional Councillors

Robert GUYTON

My principal place of residence is not in the Invercargill-Rakiura Constituency area.

When I was first elected to the council I was young and well-groomed.

12 years later, I look like Gandalf.

The hard work I've put into being a councillor has turned my hair and beard white!

I believe I've contributed much to improve our environment, by opposing the harm caused to Southland's natural resources, through the actions of profit-focussed industry and careless individuals. I've championed the most important issues: climate change, water quality and land-use change in Southland.

The major changes we have set in motion have still a way to go before they land and for that reason, I want to devote another 3 years to the regional council to bring my experience to bear upon setting in place those hard-fought changes.

I will, again, turn your vote into positive action for the environment.
