RE: Application APP-20171612-Kerr Inverurie Trust, Parawa

Parawa Farmlands Ltd is directly to the North and downstream of the above mentioned property.

After being advised by yourselves and after consultation with Cameron Kerr I am satisfied that the proposed activity to discharge composted waste onto the Kerr Inverurie Trust Parawa property will not impact on our current farming activities. This submission is in support of the activity being carried out. I understand the site is to be monitored regularly with regards to it being a new activity with particular focus on soil health and heavy metal accumulation.

If any further information is required from us please contact Rosie Hore (Owner/Director) on 0272216003.

Yours sincerely

Rosie Hore
