

Notification of Resource Consent Application under sections 95-95G of the Resource Management Act 1991 (RMA)

Notification

Under s95A(2)(a) the application **must** be publically notified as requested by the applicant.

As the applicant has requested the application be publically notified, no determination is required to be made as to the significance of adverse effects of the proposed activities.

The application

Applicant:	Fiordland Trails Trust
Application reference:	APP-20191703
Site address or location:	Leg 6 of the Lake 2 Lake Cycle Trail between chainage 2200 and 2300
New consent(s) for existing activity(ies) (s88)	<input checked="" type="checkbox"/>

The proposal

The Fiordland Trails Trust (the applicant) is seeking resource consent for a period of 25 years for the diversion of surface water, the diversion of groundwater and for wetland modification associated within the installation of a third culvert at Leg 6 of the Lake 2 Lake Te Anau to Manapouri Multi Use Trail (the Trail).

The application is for the following resource consents to authorise proposed activities at Leg 6 of the Lake 2 Lake Te Anau to Manapouri Multi Use Trail;

- × **Discharge Permit** for the diversion of surface water and groundwater
- × **Land Use Consent** for the use of land within a natural wetland

Overall, the application is a **Non-Complying Activity**.

For clarity, the applicant has another separate application (APP-20191150) for retrospective resource consent for wetland modification to enable construction of 35 metres of the trail, the placement and use of two culverts and the use of Leg 6 of the Lake 2 Lake Te Anau to Manapouri Trail. This current application (APP-20191703) is to install a third culvert within the wetland area.

Effects and Issues

The application is for the installation of a third culvert and wetland modification. Associated with these activities there are a number of issues. These include:

- the proposed diversion of surface water and groundwater;
- the modification of a wetland;

- the adverse effects on the receiving environment from the diversion of surface water and groundwater;
- the adverse effects of the proposal on cultural values;
- the effects on hydrology within the wetland;
- the effects on ecology from the modification of the wetland and installation of the third culvert;
- the effects on fish passage;
- the effects on water quality, social, economic and public access from the proposed activities; and
- the proposed consent term.

Public notification

Under s95A(2)(a) the application **must** be publically notified as requested by the applicant.
