***Request for Further Information under Section 92(1) of the Resource Management Act 1991 -  
Application for Discharge and Water Permits and Land Use Consents***

Thank you for lodging an application to use land for farming and discharge dairy shed effluent to land from 700 cows via low rate pod system and to take 84,000 l/day of groundwater at 266 O'Shannessy Road, Winton.

I need further information to better understand your proposal before a determination can be made on your application.

Please provide<sup>[1]</sup>, in accordance with Section 92(1) of the Resource Management Act, the following information:

1. An updated Assessment of Environmental Effects that corresponds with the proposed activities as it stands subsequent to the changes that have been made;
2. An updated Management Plan that corresponds with the proposed activities; and
3. Access to the OverseerFM files that relate to the proposed activities subsequent to the changes

I require this information because on 23 August 2019 you supplied a File Note that identified a number of changes to the proposed activities. Consequently the assessment of environmental effects and the management plans no longer correspond with what is actually being applied for. In order to fully understand the changes that have been made, and consequently the proposed activities, I require the above information to be updated to accurately reflect the proposal.

By **13 September 2019**<sup>1</sup>, please either provide the information, or tell me, in writing that you agree to provide the information or that you refuse to provide the information.

If you refuse to provide the information requested, or if you do not respond to this request, the application could be declined because there is inadequate information to make any other decisions on the application.

Please contact me if you have any questions regarding this request.

---

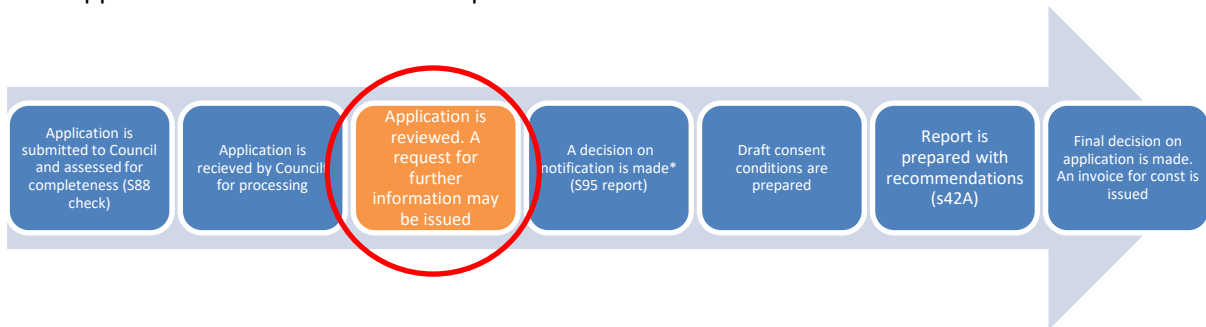

<sup>1</sup> Under Section 92A of the RMA you have until 15 working days from the date of this request to respond.

Nāku noa

Alex Erceg  
**Consents Officer**

Your application is here in the consent process:

\*If your application is assessed as needing to be limited or publically notified, you will be contacted regarding the process for these pathways.
