**Minute of the Applicants**

**30 September 2019**

**Response to directions from commissioners, minutes of 4 September, 26 September**

---

## **APP-20191052**

The proposal is for a 502-hectare dairy platform milking a maximum of 1,500 cows, as described in the application document submitted by Woldwide One Limited and Woldwide Two Limited on March 23.

Minor changes within scope of original proposal and application have been made:

### **Changes – WW1&2**

- Additional use of winter barns (Wintering Barn use in April)
- Adjustment to WW1 and WW2 Massey DESC reports (barn use in April)
- Measures proposed to mitigate P loss
- Modelling error corrected - Wintering Barn slurry removed from Marcel Block (base files)
- Modelling updated to OverseerFM Version 6.3.2
- 2018/19 Nutrient Budget provided
- Water quality assessment of effects report provided by expert

### **Changes - WRO**

- Proposed IWG area reduced to 78 ha from 100 ha
  - Planting of 12 ha in trees
  - Measures proposed to mitigate P loss
  - 2016/17 and Proposed Nutrient Budgets completed (OverseerFM Ver 6.3.1)
  - Water quality assessment of effects report provided by expert
- 
- ✓ Proposed nutrient budgets have been amended to allow for changes.
  - ✓ Main application document and WRO application document have been marked up to remove out-of-date content relating to nutrient budgets, receiving environment and AEE.
  - ✓ FEMPs have been reviewed and updated in accordance with Appendix N and are now consistent with all modelled mitigations.
  - ✓ FEMPs for WW1&2 and WRO now contain P Loss Mitigation plans, noting that lessors of the Merriburn block at WRO have agreed to the P Loss Mitigation plan.
  - ✓ An operational Effluent Management Plan has been removed from WW1&2's FEMP and sits as a standalone document.
