For the record, please just email back that you confirm the following:

The maximum gross tonnage of any vessel using one of the proposed moorings will be 200 GT
Proposed maintenance plan for each mooring: Moorings will be lifted every 2 years

The application is amended to be for moorings at the following co-ordinates, and the swing area will be 62 metres, as shown in the diagram below?

1,242,214 4,830,568 (northern mooring)

1,242,270 4,830,440 (southern mooring) – the new co-ordinates. This is 140 metres from the RJ mooring.
